Assets of Banks and Building and Loan Associations in the Course of Liquidation on June 30th, 1931, Which Have Closed Subsequent to January 1, 1926, Have Been Distributed as Follows:

Attorney Fees	\$ 799,868.19	3.0
Court Costs	183,512.92	.8
Salaries Paid	1,004,039.63	3.7

Total Assets Collected	26,538,253.77	100.0

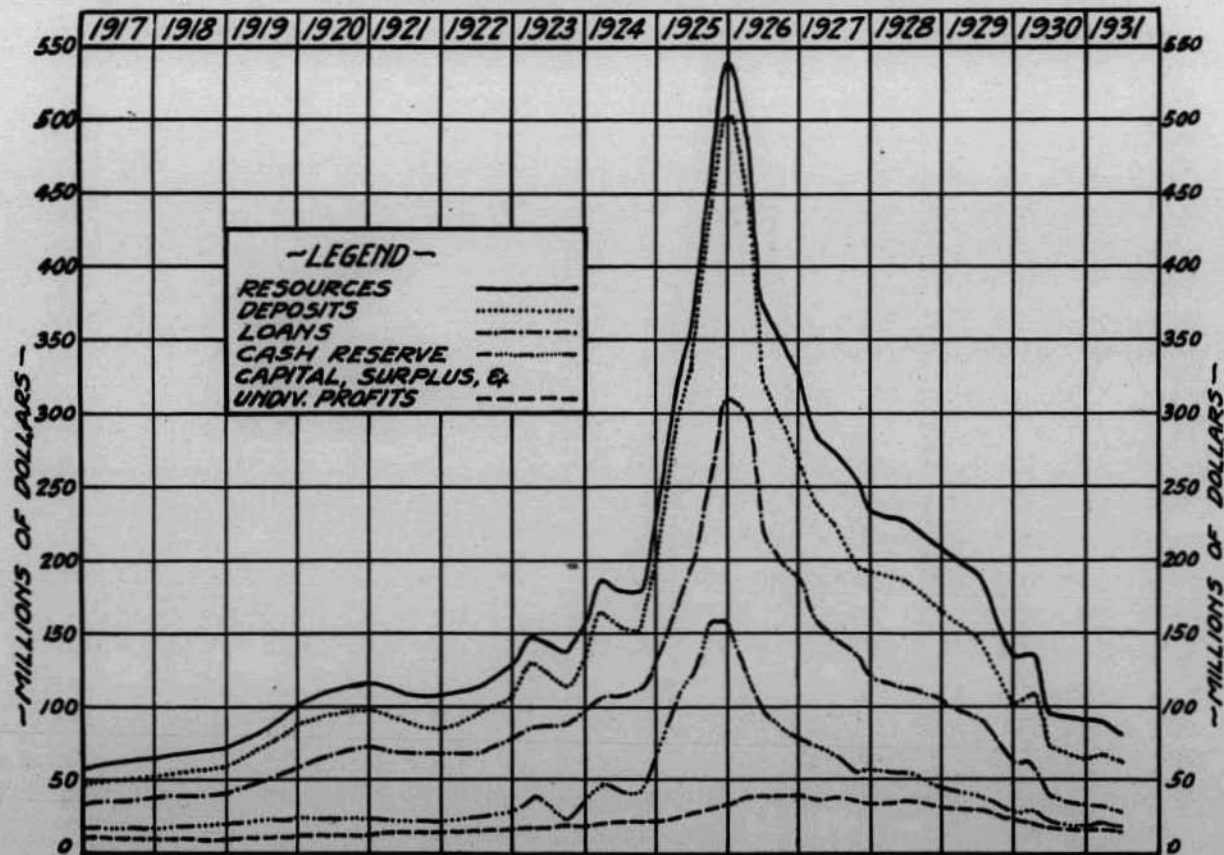

It will be noted from the above statement that 16% of the disbursements were for the purpose of defraying all cost of liquidation and when the Fixed Charges, i. Court Cost, Taxes, Insurance and Real Estate Maintenance are deducted, the cost administration is reduced to 11.89% of the total disbursements.

In addition to the above number of banks three additional banks have closed during this period and have been completely wound up paying the general creditors an average rate of dividend of 25.91% and two banks included in the 135 above mentioned while still in the process of liquidation have paid their depositors one hundred cents on the dollar.

From the foregoing schedules it will be noted that the receiverships being handled by this office on June 30th, 1931, which came into existence subsequent to January 1926, have operated at a profit of more than \$2,300,000.00, and the amount paid as compensation to receivers and liquidators, which is the only amount that I directly contribute under the laws of this State, equals only 1.87% of the total collections, whereas, under our Statutes this amount could amount to 5% of the collections. This saving has been effected by having each receiver and liquidator employed on what amounts to a salary commission basis and the saving effected is retained by each respective trust for the benefit of the creditors.

It is expected that before the above number of banks and building and loan associations have been completely closed out that the average rate of dividend will be materially increased from the 20.7% shown above.
